

WHICH PATH?

BRUM is really clever. He knows he can cross the road safely using the zebra crossing. The trouble is there are three paths to choose from to cross the road.

Only one path takes him to the zebra crossing, which one should he take A, B or C?

Can you help him find the right path?

Teacher's note: This activity would be suitable for the Knowledge and Learning area of the curriculum.

You know where to turn **TOTAL**
